HARSH KUMAR MEHTA

UI Developer | *Front End Engineer*
Email: harshmehta0519@gmail.com | Phone: +91 9988331757
Portfolio: harshbuilds.vercel.app | LinkedIn: linkedin.com/in/harsh-mehta-0a99632a4

PROFESSIONAL SUMMARY

UI Developer with 2.5+ years of experience building highly interactive, responsive, and intuitive web applications with HTML5, CSS3, JavaScript (ES6+), jQuery, and Angular 2+. Strong command of Bootstrap, CSS pre-processors (SASS/LESS), and advanced CSS features such as CSS Variables for maintainable, themeable interfaces. Experienced in cross-platform and responsive design, component-driven development with Material-UI and Angular Material, and consuming REST APIs. Adept at translating customer requirements into high-level component architecture and clean, accessible interfaces that bring simplicity, transparency, and delight to complex, data-heavy workflows. Comfortable across the full delivery cycle — requirements gathering, prototyping, integration, testing, and documentation — within Agile (Scrum) teams.

TECHNICAL SKILLS

Core Web: HTML5, CSS3, JavaScript (ES6+), jQuery, TypeScript (working knowledge)
CSS & Preprocessing: SASS/SCSS, LESS, CSS Variables, Flexbox, CSS Grid, Media Queries, BEM
UI Frameworks: Bootstrap, Material-UI, Angular Material, Responsive & Cross-Platform Design
JS Frameworks: Angular 2+, React.js, Next.js, Ionic (basic), Component-Driven Development
State & Routing: RxJS, Angular Router, Redux Toolkit, Context API
APIs & Security: REST API consumption, JWT Authentication, RBAC, Caching & Retry Strategies
Tooling & Process: Git, Docker, CI/CD, npm, Webpack, Vercel, Netlify, Agile (Scrum), Code Reviews

PROFESSIONAL EXPERIENCE

Full Stack Developer (MERN + Shopify) — Grest
Mar 2026 – Present

- Build responsive, component-driven storefront UI (cart, checkout gating, product carousels) for a live e-commerce platform serving daily customers
- Craft themeable layouts with SASS and CSS Variables, ensuring consistent styling across mobile and desktop breakpoints
- Consume REST APIs with caching and retry strategies, keeping the UI consistent under failure conditions
- Optimized frontend performance — reduced cumulative layout shift and improved cross-device load behavior
- Gather requirements from stakeholders and translate them into reusable UI components and clear technical documentation
- Monitor, debug, and resolve production UI issues; participate in code reviews and Agile (Scrum) ceremonies

Front End / Angular Developer — AGBE India
Apr 2025 – Mar 2026

- Developed e-commerce admin dashboards with Angular 2+, Angular Material, and Bootstrap using reusable, component-driven UI patterns
- Built responsive interfaces with SASS/LESS pre-processing and CSS Variables for maintainable theming and design consistency
- Implemented filters, pagination, reactive forms, and complex data workflows over REST APIs using RxJS
- Enhanced legacy screens with jQuery for interactive behaviors and DOM manipulation
- Wrote functional tests for critical UI flows, documented components, and remediated production defects to improve reliability

Front End Developer (Next.js) — Cosmoon Media
Jan 2024 – Mar 2025

- Built responsive, cross-platform web applications with HTML5, CSS3, and JavaScript, styled with Bootstrap and SASS
- Improved page-load performance through code-splitting, dynamic imports, and caching
- Supported prototyping and integration efforts and delivered scalable, component-driven frontend architecture for dynamic content platforms

PROJECTS

Arcus Dashboard (Interactive Web Application)

- Built a role-based dashboard UI with protected routes, centralized state management, and Material-UI components
- Implemented responsive layouts with SASS and CSS Variables, plus secure access (RBAC) and JWT authentication
- Added graceful failure handling with error boundaries and documented components for maintainability

Arcus Dashboard (UI Architecture)

- Designed a modular, reusable component library with consistent design tokens driven by CSS Variables
- Implemented caching strategies to reduce API response times; built CI/CD workflows for automated deployments

EDUCATION

Master of Computer Applications (MCA)
Birla Institute of Technology, Mesra — 2025 | CGPA: 8.1

Bachelor of Computer Applications (BCA)
Guru Gobind Singh Indraprastha University (GGSIPU) — 2023 | CGPA: 9.33

RESEARCH & PUBLICATIONS

IEEE Publication (2024) — Deep Learning for Heart Disease Detection

- Built and evaluated Python-based deep learning models; analyzed performance and real-world applicability

SOFT SKILLS

Problem Solving • Analytical Thinking • Creative UI Design • Communication • Collaboration with Product & Design Teams • Ownership • Adaptability

PERSONAL DETAILS

Date of Birth	19 May 2001
Languages Known	English, Hindi
Location	Delhi / NCR — open to Gurgaon, Noida (Hybrid)
Notice Period	Negotiable

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and belief.
