HARSH KUMAR MEHTA

Email: harshmehta0519@gmail.com | Phone: +91 9988331757
Portfolio: harshbuilds.vercel.app | LinkedIn: linkedin.com/in/harsh-mehta-0a99632a4

SUMMARY

Full Stack Web Developer with 2+ years of experience building responsive, scalable, and high-performing web applications across frontend and backend. Strong proficiency in Python for backend services and automation, with hands-on experience developing REST APIs and integrating third-party APIs. Skilled in JavaScript (ES6+) with React.js and Next.js on the frontend, and comfortable across relational (MySQL, PostgreSQL) and NoSQL (MongoDB) databases. Familiar with Git, deployment workflows, and cloud hosting. Available to join immediately.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, HTML5, CSS3
Backend: Python (Flask, FastAPI, scripting/automation), Node.js, Express.js, REST APIs, JWT Authentication
Frontend: React.js, Next.js, Tailwind CSS, Responsive Design
Databases: MySQL, PostgreSQL (Relational), MongoDB (NoSQL), Query Optimization
Cloud & DevOps: AWS & GCP (basic hosting), Docker, Git, CI/CD, Vercel, Netlify
Integrations: Third-Party APIs, Payment/Webhook flows, Postman, Web Scraping
Concepts: OOP, System Design, API Security, RBAC, Caching, Performance Optimization, Agile (Scrum)

EXPERIENCE

Full Stack Developer (Python + MERN + Shopify) — Grest
Mar 2026 – Present

- Build and maintain responsive storefront features and REST APIs for a live e-commerce platform serving daily customers
- Developed Python automation pipelines for competitor price scraping and bulk catalog updates, cutting manual effort by ~90%
- Integrated third-party APIs (pricing, inventory, webhooks) and troubleshot technical issues across frontend and backend
- Implemented JWT-based authentication and role-based access control (RBAC)
- Designed database schemas and optimized queries across MongoDB and relational stores for backend performance
- Monitor, debug, and resolve production issues, ensuring website performance, security, and code quality

Full Stack Developer (Angular) — AGBE India
Apr 2025 – Mar 2026

- Developed e-commerce admin dashboards for products, orders, and users using object-oriented design principles
- Implemented filters, pagination, and data workflows backed by relational databases (MySQL/PostgreSQL)
- Built reusable components, integrated third-party APIs, and wrote functional tests for critical flows
- Collaborated with designers and cross-functional teams to deliver seamless user experiences

Full Stack Developer (Next.js) — Cosmoon Media
Jan 2024 – Mar 2025

- Built responsive, performance-optimized web applications using Next.js and modern JavaScript
- Integrated APIs and improved page-load performance through caching and code-splitting
- Delivered scalable frontend architecture for dynamic content platforms

PROJECTS

Arcus Dashboard (Full Stack Application)

- Developed a role-based dashboard with secure access control (RBAC) and JWT authentication
- Built backend services with Python and Node.js using both PostgreSQL (relational) and MongoDB (NoSQL) databases
- Wrote automated tests for API endpoints and documented services for maintainability

Price Intelligence Engine (Python)

- Built a Python service that scrapes, normalizes, and stores live competitor pricing into a relational database
- Exposed cleaned data through REST APIs and scheduled jobs for automated daily updates

EDUCATION

Master of Computer Applications (MCA)
Birla Institute of Technology, Mesra — 2025 | CGPA: 8.1

Bachelor of Computer Applications (BCA)
Guru Gobind Singh Indraprastha University (GGSIPU) — 2023 | CGPA: 9.33

RESEARCH

IEEE Publication (2024) — Deep Learning for Heart Disease Detection

- Built and evaluated Python-based deep learning models; analyzed algorithmic performance and real-world applicability

SOFT SKILLS

Problem Solving • Debugging • Communication • Collaboration with Product & Business Teams • Ownership • Willingness to Learn New Technologies
