SUMMARY

Full Stack Developer with 2+ years of experience building scalable web applications, specializing in the MERN stack (MongoDB, Express.js, React, Node.js). Strong backend expertise in designing REST APIs, authentication systems, and performance-optimized architectures. Focused on clean code, system design, and production reliability.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, PostgreSQL
Tools: Git, Docker , Vercel, Netlify
Concepts: System Design, RBAC, API Security, Caching, Scalability

EXPERIENCE

Full Stack Developer (MERN + Shopify) — Grest
Mar 2026 – Present

- Built and maintained REST APIs using Node.js and Express
- Implemented JWT-based authentication and role-based access control
- Designed MongoDB schemas and optimized backend performance
- Resolved production issues across frontend and backend

Full Stack Developer (Angular) — AGBE India
Apr 2025 – Mar 2026

- Developed e-commerce admin dashboards for products, orders, and users
- Implemented filters, pagination, and data workflows
- Built reusable components and handled API integrations
- Debugged production issues and improved system reliability

Full Stack Developer (Next.js) — Cosmoon Media
Jan 2024 – Mar 2025

- Built responsive web applications using Next.js
- Integrated APIs and optimized application performance
- Delivered scalable frontend architecture for dynamic platforms

PROJECTS

Arcus Dashboard (Full Stack Application)

- Developed a role-based dashboard with secure access control (RBAC)
- Built backend services using Node.js with MongoDB & PostgreSQL
- Designed scalable architecture with modular components

Arcus Dashboard(System Desgin)

- Designed microservices-based architecture with scalable services
- Implemented caching strategies to improve response time
- Built CI/CD workflows for automated deployments
- Applied RBAC and secure authentication mechanisms
- Planned failure handling and service isolation

EDUCATION

Master of Computer Applications (MCA)

Birla Institute of Technology, Mesra — 2025 | CGPA: 8.1

RESEARCH

IEEE Publication (2024) — Deep Learning for Heart Disease Detection

- Evaluated model performance and real-world applicability

SOFT SKILLS

Problem Solving • Debugging • Communication • Ownership • Adaptability
