HARSH KUMAR MEHTA

Email: harshmehta0519@gmail.com | Phone: +91 9988331757
Portfolio: harshbuilds.vercel.app | LinkedIn: linkedin.com/in/harsh-mehta-0a99632a4

SUMMARY

Software Developer with hands-on experience building scalable web applications end to end using **Node.js** and **React**. Strong in JavaScript (ES6+), HTML, and CSS, with a track record of designing and shipping RESTful APIs, integrating third-party services, and securing endpoints with JWT authentication. Comfortable owning features across the full stack — from React frontends to Node.js/Express services over MongoDB and PostgreSQL/MySQL — and collaborating closely with product, design, and QA in a fully remote team. Experienced with Git workflows, code reviews, cloud deployment, and debugging and optimizing applications for performance and scalability in production.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, SSR/ISR), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive UI
Backend: Node.js, Express.js, RESTful API design, JWT authentication & API security, webhooks, third-party API integrations
Databases: MongoDB (NoSQL), PostgreSQL, MySQL; schema design, indexing, query optimization
Cloud & DevOps: AWS / GCP, Vercel, Docker, CI/CD (GitHub Actions), production deployment & monitoring
Version Control: Git & GitHub — branching, pull requests, code reviews
Languages: JavaScript (ES6+), TypeScript, Python, SQL
Practices: Clean/maintainable code, testing, debugging, performance profiling, Agile collaboration

EXPERIENCE

Full Stack Developer (Node.js / React) — Grest
Mar 2026 – Present

- Designed and built **Grest TradeIn**, a device trade-in platform with **Government of India integration** for device/IMEI verification — React frontend, Node.js REST APIs over MongoDB, deployed on **AWS**
- Integrated secure government and third-party APIs with JWT auth, retries, and idempotency; handled verification workflows and status tracking end to end
- Maintain and extend the **Shopify** storefront — Admin REST/GraphQL integrations, pricing, and webhooks driving the trade-in flow
- Improved application performance through profiling and optimization — PageSpeed desktop 34→75 and mobile 31→55
- Built Python automation and data pipelines for scraping, cleanup, and bulk catalog updates, cutting manual effort by ~90%
- Deploy features on AWS and support production issues; collaborate with product and design in a fully remote workflow

Full Stack Developer — AGBE India
Apr 2025 – Mar 2026

- Built admin dashboards and data workflows for products, orders, and users with a reusable React component architecture
- Developed Node.js REST APIs, integrated third-party services, and implemented filters, pagination, and functional tests for critical flows
- Participated in code reviews and debugged and remediated production defects, improving reliability

Full Stack Developer (Next.js) — Cosmoon Media
Jan 2024 – Mar 2025

- Built responsive, performance-optimized web applications using React/Next.js and modern JavaScript (ES6+)
- Integrated backend services and improved page-load performance through caching and code-splitting

PROJECTS

Arcus Dashboard (Full Stack — React + Node.js)

- Role-based dashboard with RBAC and JWT authentication; Node.js/Express backend over MongoDB and PostgreSQL
- Secured REST APIs, added automated API tests, and set up CI/CD for reliable deployments

AI Assistant / LLM Integration (Next.js + Node.js)

- Built a chat-style assistant with streaming responses and RESTful backend APIs; integrated third-party provider APIs behind a clean, scalable service layer
- Handled rate limits, retries, and error handling for robust production behavior

EDUCATION

Master of Computer Applications (MCA)
Birla Institute of Technology, Mesra — 2025 | CGPA: 8.1

Bachelor of Computer Applications (BCA)
Guru Gobind Singh Indraprastha University (GGSIPU) — 2023 | CGPA: 9.33

ADDITIONAL

IEEE Publication (2024) — Deep Learning for Heart Disease Detection (Python, model evaluation)

SOFT SKILLS

End-to-End Ownership • Autonomous Remote Collaboration • Problem Solving • Communication • Product Thinking • Adaptability
